Thermody™

Economic Packing Tools System

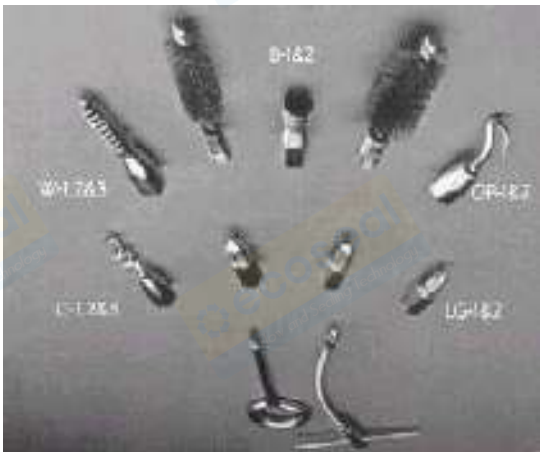

“The Right Tool for the Job”

A complete integrated line of tools designed to handle your packing maintenance with ease. The unique interchangeability of tips with flex or rigid holders allows a versatility not available elsewhere. Worn or damaged tips may be replaced at minimum cost rather than sacrificing the entire tool. Plated for corrosion protection, these tools meet or exceed government Specifications.

Thermody™

Economic Packing Tools System

C-1, 2 & 3 corkscrews for most packing,
W-1,2 & 3 Woodscrews for hardened packing,
B-1 & 2 Brush sets (two sizes each set) for cleaning the stuffing box.

OP-1 & 2 Oakum Pullers
LG-1 & 2 Lantern Gland Thread Adapter sets (three thread sizes per set)
F-1, 2 & 3 & 4 & 5 & 6 Flexible Shaft Extractor with removable and permanent tips.
S-1, 2 & 3 & 4 & 5 Solid Shaft Extractor with removable and permanent tips.

Thermody™

Economic Packing Tools System

P-7, 8 & 9 Solid shaft Picks to remove packing that breaks up easily.

OR O-Ring Extractor constructed with the proper curve and offset to make a sometimes difficult job, easy without risk to equipment.

Packing Knife w/sheath

A keen edged stainless blade mounted in a wooden handle for a good grip, makes a fine addition to any tool
