

NYTREX™

Premium Loading Bay & Truck Safety Products

Nytrex™ is the indestructible alternative to moulded and laminated dock bumpers.

Nytrex™ loading bay and truck products have a proven track record and have industry installations dating back over the last 2 decades. In addition to Nytrex Dock Bumpers, Nytrex Trailer Plates cover damaged yard concrete caused by rotating trailer legs and can be surface or in-ground mounted.

Nytrex™ dock bumpers:

- Standard sizes, no need for new fixings
- Custom made to cover damaged dock concrete
- Steel bumper support brackets
- Yellow for superb visibility
- Environmentally friendly
- Tested in extreme temperatures
- Proven track record over 2 decades of use
- 5 year warranty
- No trailer “catch” points
- Any size or configuration
- Protects trailers and buildings
- Exclusive Nytrex Slider eliminates wear from truck movement

The exclusive Nytrex Slider.

With no strings, wheels or pulleys, Nytrex Sliders allow movement with your vehicle bed as it is loaded or unloaded, giving a much longer bumper life.

Standard Nytrex Dock Bumpers.

Standard size Nytrex Dock Bumpers. Replace all existing rubber and steel faced bumpers with no need for extra fixings or cost.

Nytrex L Shaped Dock Bumpers.

Standard size 'L' Shaped Nytrex Dock Bumpers in safety yellow fit to existing bolts. No need for expensive new drilling into the dock concrete.

Nytrex 'Custom made' Dock Bumpers.

Custom made Nytrex Dock Bumpers can be made to any size or configuration. These prevent costly building damage from non-standard trucks.

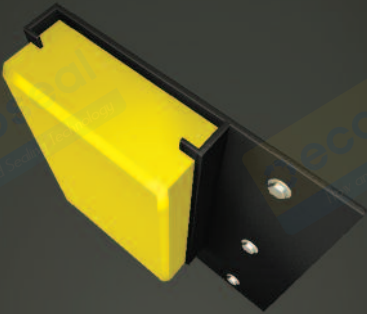

Nytrex Trailer Plates.

Protection of yard concrete from damage and prevent unsafe loading or unloading from 'creeping or rocking' on landing gear. Available for in ground or surface mounting.

The ultimate dock bumper solution, innovative reversible design gives 4 times the wear from one dock bumper.

Wheel Chocks.

Solid or holed.

Regular rubber bumpers after 6 months of use.
