

## Parker Modular O-Ring Kit

Remember the last time you needed an O-Ring? Odds are you spent more than a little time searching thru the shop, trying to find where you put that small package of O-Rings you bought last month . . . And remember when you *finally* found them? ...the problems with trying to determine if they were the correct size ... *and* the correct material. The trouble with O-Rings is, they're usually small, black and have a bad habit of disappearing when you need them most.

Now, Parker Seal has an answer to the problem of the disappearing O-Ring...

### The Contents

- 37 of the most popular Parker O-Ring sizes.
- Over 480 O-Rings total
- Available with Parker O-Rings in nitrile, neoprene, ethylene propylene, fluorocarbon, silicone or any other Parker compound.
- Many custom materials are available for your precise requirements. (1)

### The Kit

- Tough, impact resistant ABS plastic.
- Heavy duty design with reinforced hinges and metal hinge pins.
- EASY-TO-READ numbered plugs have ridge to prevent O-Rings from falling off.
- Large Cross-Reference Chart inside kit with nominal and actual dimensions of standard AS 568A(2-) part numbers.
- Internal locking system stays intact, unlike others which are easily broken.
- Easy accessibility of all O-Rings due to modular design.
- Built-in sizing blocks for checking cross-section.
- Plugs double as gauges for inside diameters (I.D.)

(1) minimum order requirements, dependent on your specifications.

## Imperial Sizes O-Ring Kit

485 O-Rings in 37 different imperial sizes.

## THE PARKER MODULAR O-RING KIT

The Parker Modular O-Ring Kit was designed especially to solve the storage problems of O-Rings from start to finish ... it's not just a box with a fancy label formally used to store nuts and bolts. The Parker O-Ring Kit is a complete "**MODULAR SYSTEM**" for the storage of just the O-Rings you need, neatly sized and inventoried. If you are involved in Plant Maintenance, Prototype work or engineering development... the Parker Modular O-Ring Kit will make your work easier... From Parker, naturally.

### The Features

- All plugs are removable AND interchangeable.
- With in-use experience, Kit can be customized by user by ordering specific plugs to adjust kit inventory to actual needs.
- Easy inventory...all rings are visible. Low inventory Rings are very apparent.
- CUSTOM KITS AVAILABLE, the concept of the Parker Modular O-Ring Kit, with its ease of interchangeability allows for customizing of sizes to accommodate special sizes and special materials. (1) Parker also can totally customize a kit to your complete specifications including having the basic kit molded in your own company colours.

### The Benefits

- Reduce down-time with the immediate availability of the needed O-Rings.
- Reduce labour costs... no more will your mechanics and production people have lost time while the correct O-Ring is found.
- Reduce costs by avoiding Minimum order charge usually involved in obtaining a single item.
- Save money... lost O-Rings are bought again and again.
